Jeudi 12 octobre 2017

9h00-9h30 INTRODUCTION

9h30-11h00 Session 1 - RESEARCHES ON HEALTH COMMUNICATION: TRANSLATION TO CLINICAL PRACTICE

- Achieving Shared Decision Making for all: how well are we doing and how can social science research help us do better? - **Kirsten Mc Caffery** (University of Sydney, Australia)
- The huge potential of shared decision making, if done exceptionally well - **Glyn Elwyn & Marie-Anne Durand** (The Dartmouth Institute for Health Policy and Clinical Practice, USA)
- How shared decision-making is evolving in France and where we can be? - **Nora Moumjid** (Université Claude Bernard, France)

11h00-11h30 Pause

11h30-12h30 Selected abstracts

- Next-generation sequencing in clinical practice: from the patients' preferences to the informed consent process - **Aurore Pélissier** et al (Université de Bourgogne-Franche-Comté, France)
- Evaluation of a context-adapted decision aid supporting critically ill patients' decisions about life-sustaining therapies - a pilot project - **Ariane Plaisance** et al (Université Laval et Centre de recherche de l'Hôtel Dieu de Lévis, Canada).

- Comparative effectiveness of encounter decision aids for early stage breast cancer surgery across socioeconomic strata: study protocol - **Marie-Anne Durand** et al (The Dartmouth Institute for Health Policy and Clinical Practice, USA)

12h30-13h30 **Pause**

13h30-15h00 Session 2 - COLLECTING PSYCHOSOCIAL OUTCOMES, INTERVENTIONAL RESEARCH: IMPACT ON MEDICAL PRACTICES AND SOCIAL POLICIES

- Acting on cancer and its determinants through evidence-based data: from basic research to interventional research in human and social sciences - **Sandrine Halfen** (INCa, France)
- How to identify psychosocial problems encountered by patients undergoing genetic testing? The development and use of a PROM in genetic counselling for cancer - **Eveline Bleiker** (The Netherlands Cancer Institute, The Netherlands)
- How to improve patient's information? Methodological challenges to reconcile research and action - **Julien Mancini** (Aix-Marseille Université, SESSTIM, France)

15h00-15h30 **Pause**

15h30-16h10 Selected abstracts

- French media and ideas about prostate cancer: Insights for public education - **Margareth Zanchetta** et al (Ryerson University, Canada)
- Challenges in the development, implementation, and diffusion of a delirium screening tool in health services: The story of the NU-DESC - **Pierre Gagnon, Francois Tardif** et al (Université Laval, Canada)

16h15-17h00 Table ronde : Associations de patients et recherche en SHS : quelles relations ?

Dominique David (Association ARTC), **Jean-François Moulin** (Institut Paoli-Calmettes), **Eve Bureau** (SESSTIM), membre du comité de patients de l'Institut Paoli-Calmettes

La table ronde se déroulera en français.

Vendredi 13 octobre 2017

9h30-11h00 Session 3 - RESEARCHES IN MEDICAL SOCIOLOGY: IMPLEMENTATION AND IMPACT OF MEDICAL INNOVATIONS

- Situated Intervention: Experiments with Standardization for Patient-Centered Care - **Teun Zuiderent-Jerak** (Linköping University, Sweden)
- Investing in the future: Making genomic medicine work in cancer care - **Anne Kerr** et al (University of Leeds, United Kingdom)

- Organizing for innovation: exploring translational research in the making - **Patrick Castel** (Sciences Po, CSO, France) & **Pascale Bourret** (Aix-Marseille Université, SESSTIM, France)

11h00-11h30 Pause

11h30-12h30 Selected abstracts

- Social Recognition of a Medical Innovation: the Case of Interventional Radiology in Oncology - **Philippe Gorry, Béatrice Jacques et al** (Université de Bordeaux, France)
- Cancer Immunotherapy and Family Medicine: Organizational and Professional Transformations in the Translation of Oncology Innovation within Primary Healthcare in Cuba - **Nils Graber** (CERMES3, EHES, France) & **Geidy Lorenzo Monteagudo** (Center of Molecular Immunology, Cuba)
- Coordinating the expertise of social scientists, health professionals and patients in interventional cancer research: The issue of relationship fluidity and the extension of socio-technical networks - **Philippe Terral** (Université Toulouse 3 Paul Sabatier, France)

12h30-13h30 Pause

13h30-14h30 Session 4 - **RESEARCHES IN MEDICAL ANTHROPOLOGY: HOW IDENTIFYING THE LOGICS BEHIND PATIENTS AND HEALTH PROFESSIONALS' BEHAVIOURS CAN CONTRIBUTE TO MEDICAL PRACTICES**

- Elderly patients treated with chemotherapy: how the person's "rocky path" can be of use to medical end of life practice - **Rose-Anna Foley** (Haute Ecole de Santé Vaud, Switzerland)
- An anthropological approach of Tamoxifen: what conclusions for medical practice? - **Aline Sarradon-Eck** (SESSTIM, France)

14h30-15h20 Selected abstracts

- The light beyond biology. Sociological perspectives on breast cancer - **Barbara Morsello** (University of "Roma Tre", Italy)
- Breast cancer in time. What a medical anthropological analysis can show about the uses of chronicity in early stage and metastatic breast cancer - **Cinzia Greco** (University of Manchester, United Kingdom)

15h20-15h30 Pause

15h30-16h00 **CONCLUSION ET DISCUSSION GENERALE**
